Phone no. – 0181-2262141

We believe in the perfection that exists in each individual and that can be manifested through the right guidance on the part of the school. There is a spark of genius in every student which needs a teacher to kindle it.

We as facilitators, try to imbibe in our students the value of courage, honesty, curiosity along with a spirit to work hard and be an achiever which will help

them make the world deem even better place to live in.

Let us all take a moment to pause, look back at this year and celebrate our successful journey together through the tough times of covid-19 pandemic. One important lesson that we all have learnt from covid-19 is that life will throw difficulties in our path and we all must stay brave, learn to adapt and keep moving towards our goal.

At last, I would like to give my best wishes to you and your family. Let us all stay safe and keep up the good work. I would like to sum up with this quote:

Children are the priority. Change is the reality. Collaboration is the strategy.

Mrs Rosy Sharma

Principal

The primary school years are the time in which the brain begins to maximize efficiency by determining which connections to keep and which to eliminate.

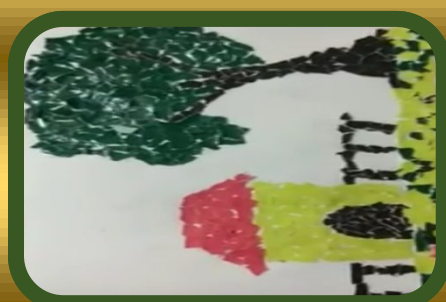

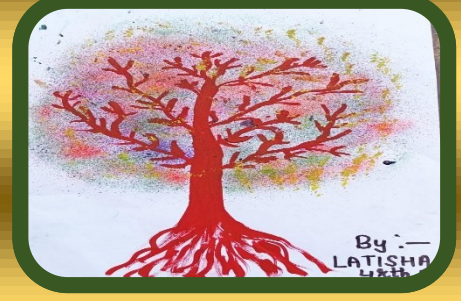

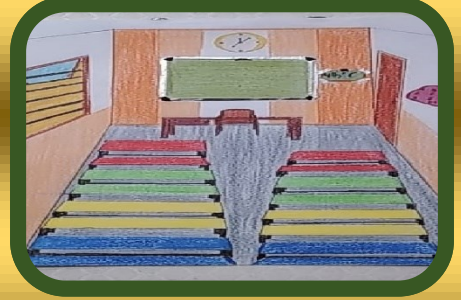

With a child friendly ambience and a self learning environment the curriculum at Kendriya Vidyalaya No. 2 has been designed to make required brain connections stronger by giving them daily opportunities to develop both large and small muscle skills, by giving them chance to practice developing social skills and interact directly with their

environment. Children are going to learn self- help skills, good language skills and gaining confidence to face all life situations. The school has teachers who are the facilitators of joyful learning process on the one hand and a series of activities with advanced multisensory teaching aids on the other.

Too many young students for multiple reasons are forced to give up their dreams, often before they can even pursue them. At KV No.2 Jalandhar Cantt, however each student has the opportunity to create the world of his own future. We have tried our level best to make the learners inquisitive & creative, draw out the best out of them & develop in them a harmonious & integrated personality. As per the guidelines of KVS & the able guidance of Mrs. Rosy Sharma, principal of our Vidyalaya, we have been organizing an array of activities to bring qualitative improvement in primary education. And YOUNG MINDS – Our newsletter is the reflection of our ideas.

Mrs. Anju Arora
Officiating H.M.
